All the students invite you to attend our show about La Fontaine et Molière **on December 15th from 17.00 pm to 18.00 pm** at LG gymnasium.

Edito

Dear LIFT Parents,

It is with much emotion that I inform you that Jenny Wu will soon leave our team. Jenny wishes to change the course of her career and pursue a master's degree in art history.

Jenny is much more than our financial and administrative officer. She has coordinated the creation of the school as project manager since September 2021. Jenny has worked on every topic, helped on every challenge and is very much the history of our school. Her patience, her dedication, her conscientiousness and sensibility have been more than strengths for the LIFT, they were, in my opinion, one of the main reasons why we have a school today. Of course, we were a very close team, and it is with deep regret to see Jenny leave, although I wish her all the best in her future endeavors.

The LIFT team will be, starting December 1, strengthened by Anthony David, who will work part-time with us. There is little doubt that your children have already talked to you about Anthony, with whom they have lunch every day! We are very happy to be able to count on Anthony. A school nurse by trade, Anthony will allow us to have longer medical monitoring during the day. He will also be in charge of school life, from monitoring recess times to listening to pupils' needs, with the mission to set-up an infirmary and a full student life section for the next school year. This will contribute directly to our mission to ensure the well-being of pupils and staff at school.

LIFT is growing quickly. We answer every day requests for information and meet on a daily basis families who recognize their educational values in what we have to offer. We have very little doubt about our ability to double the number of pupils next school year. This development also means that we will recruit new talents soon and that our team will get bigger. I regularly receive applications from professional educators who tell us they are happy to know a school such as LIFT exists, and tell us they recognize themselves in our values and our project. Emotion is always constant when creating a new institution, to transition from childhood to adolescence, to build progressively a rich identity results from such diverse talents.

Kindest regards,
Thomas Chaumont
